**Removable ramp**

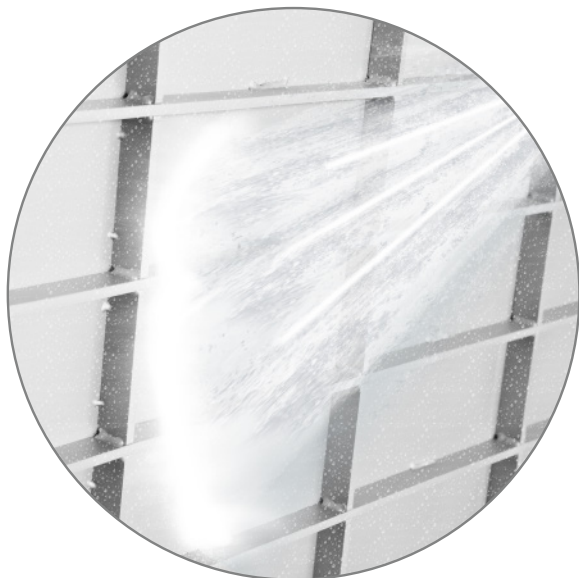

For complete cleanliness, the ramp can be easily removed to clean the lower area.

**Effortless lifting of platform**

The 304 stainless steel gas shock absorber system means a single operator can lift and lower the platform for cleaning with minimal effort.

Open hygienic structure

Our weighing platforms are designed with a totally open structure, to avoid liquid deposits and to make exhaustive cleaning of its entire surface easy.

Quick and easy thorough cleaning

The raised weighing platform makes thorough cleaning of its surface easy, with no hidden parts, to comply with HACCP guidelines.

Hygienic use guaranteed

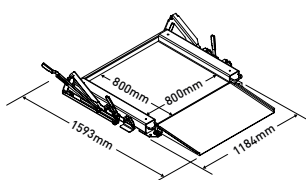

Our hygienic Crocodile weighing platforms reduce the risks of biological and chemical contamination, and allow for quick and intensive cleaning.

They are designed to meet the most commonly used hygiene standards. We use AISI 304 (V2A) stainless steel, with smooth surfaces, without edges, with IP68 degree of protection, hermetically sealed load sensors and digital Xtrem connection.
