The stainless steel pallet truck scale

- Manufactured from AISI 304 stainless steel for humid/wet environments.

- Load cells manufactured from stainless steel.

- Equipped with high quality nylon wheels for improved resistance to wear and tear from intensive use.

- Available (TCamel Inox HR-2T) with dual-range capacity 600kg/2000kg with dual readability/resolution: 200g/500g.

- K3 indicator housed inside a stainless steel frame.

▶ **Features:**

- 100 item memory with alphanumeric codes.
- Classification or verification by weight with a display that uses 3 bright colours.
- Piece-counting function that remembers the weight of 100 individual items.
- Can display total accumulated weight for multiple items.
- 20 tare memories.
- Automatic, normal, or fixed tare weight.

▶ **Wireless Remote Display (optional)**
The Gram RD3W wireless remote display can be set anywhere up to 50 meters away, allowing you to see the weight from a distance thanks to its large 80mm-tall digits.
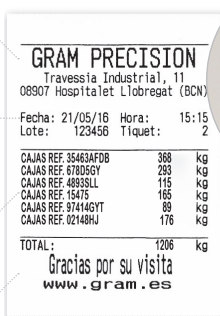

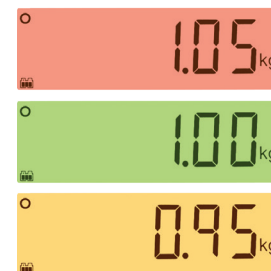

▶ **Ideal for wet environments**
Thanks to the fact that it's made of AISI 304 stainless steel, with stainless steel cells, it's guaranteed to be highly resistant to rust in wet environments.

3 lines of customizable header.

Date, time, lot number, and ticket number.

Product code, cumulative weight, etc.

2 lines of customizable footer.

▶ **Wireless Printer (optional)**
With the Gram PR3 wireless printer, you can place the printer up to 50 meters from your pallet truck and print all your weights effortlessly.
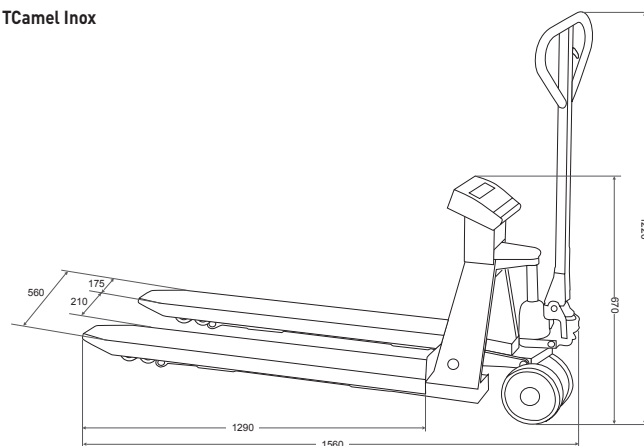

▶ **Weight Verification**
The multicolour display allows the user to verify the weight or classify products by weight with ease by using the colour-coded readout. The green readout can be configured for the median weight (OK), red for HI, and yellow for LO.

1.05 kg
1.00 kg
0.95 kg

▶ **Integrated Printer (optional)**
Ticket printer with number of items weighed, cumulative weight, date, and time of each load (optional), product code, lot no., ticket no., and page header and footer.
